(Hämeenlinna) FINLAND

LAND MANAGEMENT, WETLAND AND FARMING

December 2017 Hahkiala was granted the prestige Wildlife Estates label (WE) which is given by European Landowners Organization "under strictly scientific criteria to territories that practice the highest standard of wildlife and land management, and maintain close collaboration with local authorities or the wider public, in order to enhance biodiversity; the label is renewable every five years. Places which voluntarily adhere to WE philosophy, demonstrate that local human development and sustainable land use have to be integrated in the same project, even in protected areas".*

Hahkiala is run with sustainability in mind as heat is produced by own woodchip power plant, water is cleaned by own wastewater station, waste is minimized, forest management ensures growth and diversity and all other actions are taken to ensure sustainability.

At Hahkiala educational visit includes a tour of our wetlands and forests, visit to our chip station and wastewater station as well as a presentation of our forest management. Group is guided by a specialist within sustainable land management and forestry. After visits we gather for a round table discussion to further deepen into the subject. and enjoy afternoon coffee with cake.

After the day's official programme the group will enjoy a true Finnish sauna and hot tub by the lake and a dinner prepared from wild and local ingredients. Overnight at Hahkiala Manor with breakfast.

For the second day we can assist to organize a visit to local farms (pig farm, dairy farm or sheep farm) and our neighbour, Lantmännen Agro, who develops and test different seeds and farming at the fields around Hahkiala. Price for the visits upon request.

WORK, NATURE & WELL-BEING

According to World Happiest Report Finland is the happiest country to live in. One important factor is to find a good work-life balance and make choices that support overall well-being. This programme gives you a great insight to the subject.

Jutta & Juha are experienced and charismatic speakers with a holistic approach. The couple offer an unique combination as Jutta's catchy energizing personality and knowledge within well-being is combined with Juha's scientific view on the topics.

Lectures & exercises address the issues that affect us all: stress, time management, self-management, how to be present and how to take control of our own life.

Jutta's and Juha's aim is to help you to:

- take responsibility for your own well-being and health
- recognize the signs of stress and learn how to manage stress
- find ways to support recovery in your everyday life
- increase productivity and community spirit in the work community
- work towards reducing sick leave days
- streamline and manage your time
- take responsibility for leading yourself

Educational visit includes lectures, exercises, welcome drink, lunch, afternoon coffee & smoothie, Finnish sauna experience with a hot tub by the lake and a dinner prepared from wild and local ingredients. And an overnight at Hahkiala Manor with breakfast.
